QUIETLY DEFYING THE  
LAWS OF PHYSICS<sup>SM</sup>

# Barbetta

## Performance Features:

- Full audio bandwidth and solid bass
- Accurate imaging and smooth midrange
- Clean, realistic vocals and acoustic sounds
- LiteBox lightweight construction: both rugged and acoustically correct
- Internal electronic fan cooling system protects sensitive components
- Computer-balanced for flat frequency response

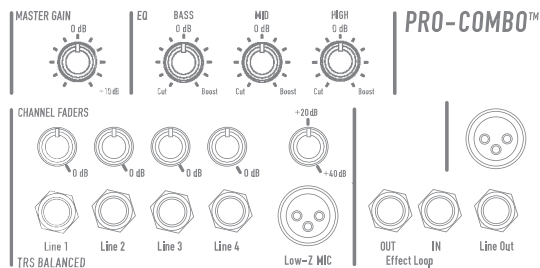

## Input Section Features:

- Four 1/4 inch TRS balanced line inputs with faders
- Individual channel attenuators
- High gain XLR microphone input with gain trim
- XLR and 1/2 inch pre-fader line outputs
- Low-noise active master fader
- Three-band global EQ
- FET signal path (MosPath™)
- Dual-function effect loop with electronic switching

## Specifications:

SPL @ FULL OUTPUT	119 dB @ 1 Meter
WOOFER POWER	300 W RMS Continuous Peak
TWEETER POWER	150 W RMS Continuous Peak
SPEAKERS	2x 10-inch, 45 oz. Magnet 4.5-inch Exponential Tweeter
CROSSOVER	Special Design, 2240 Hz
LINE INPUTS	TRS Balanced, 5K Ohm
MIC INPUT	XLR Balanced, 1K Ohm
LINE OUT	Pre Fader, 600 Ohm
EFFECT LOOP	Post, Electronically Switched
EQ	Global, ± 14 dB
BASS	125 Hz
MID	650 Hz
HI	1200 Hz
INPUT FOR FULL OUTPUT	2 Volts RMS

## SONA Pro-Combo™ INPUT PANEL:

**THE SONA SE-41C** has been developed to offer an unheard-of level of audio performance—high sound output, realistic sound images, full frequency response (40Hz to 20kHz), and a compact package that is very lightweight. The compact size reflects our hallmark design concept: that pro need and want compact audio gear with acoustic quality equal to full-size PA systems.

It is built with an exclusive array of technologies: LiteBox™ lightweight construction results in a cabinet that is both rugged and acoustically correct. The high sound level comes from a new power amplifier design with an internal fan cooling. The *SE-41c* is the first active speaker to have it.

The great sound comes from computer balancing, a full repertoire of Hidden Tweaks™, patented technologies, and years of design know-how. From the most delicate images to dominating sound levels, the full-range *SE-41c* delivers it all.
